

NEIL SHANNON.

[To accompany bill H. R. No. 188.]

MARCH 5, 1840.

Mr. S. WILLIAMS, from the Committee on Invalid Pensions, made the following

REPORT :

The Committee on Invalid Pensions, to whom were referred the petition and papers of Neil Shannon, report :

That upon an examination of the case, the committee agree in a report made to the House of Representatives on the 6th day of February, 1839, and adopt said report, and accompany the same with a bill.

FEBRUARY 6, 1839.

The Committee on Invalid Pensions, to whom was referred the petition of Neil Shannon, report :

That the petitioner represents that he was a soldier during the late war ; and that, while in the service, and in the discharge of his duty, his shoulder was dislocated, by which he has ever since been disabled from procuring a subsistence by manual labor ; and he prays for a pension.

Captain John Patton testifies that he was a private in his company, and that, while in the discharge of duty, his shoulder was dislocated, by which he has been rendered a cripple ever since. George F. Davison testifies to his receiving the injury while in the service. Doctors J. M. Cally and Benjamin Dolbear testify that they have examined the petitioner, and that they find him afflicted with an entire dislocation of the right shoulder ; in consequence of which the right arm is withered, and rendered, in a great degree, useless ; and that, from the long standing of the injury, there is no hope of any improvement, but, on the contrary, they believe the injury will increase rather than abate, during life.

The committee believe the petitioner entitled to relief, and report a bill.
